**Traffic Shift on Route 7 in Wilton from Allen's Meadows to Olmstead Hill Road
Rescheduled for Wednesday, November 19, 2008**

Wilton, Connecticut – The Connecticut Department of Transportation announced today that the traffic shift on Route 7 between Allen's Meadows (in the vicinity of Wilton High School) to just north of Olmstead Hill Road originally scheduled for last week has been rescheduled due to weather.

Route 7 northbound and southbound traffic will be shifted from its current alignment to the newly constructed pavement on the west side of the road, to allow for work on the east side of the road. Cannon Road will remain open during the traffic shift.

The work will be completed during the day on Wednesday, November 19, between the hours of 9:00am and 3:00pm.

Motorists should expect delays as lanes will be reduced to one in each direction and will require intermittent traffic stoppages, while the work takes place. It is anticipated that this traffic configuration will continue until the Spring of 2009.

Please use caution when traveling through the construction work zone to ensure the safety of motorists and construction personnel.
